

Max Music Service

Customized Background Music for your
Restaurant or Business

What you should know

Before you settle on a music system, you should avoid companies that have the following issues:

- Don't use an Internet "Streaming" company—this has a great potential to use up a lot of your corporate or store Internet bandwidth. This could impact your sales process!
- Avoid expensive satellite systems—it's likely to cost you a lot of unnecessary dollars and future expenses when it comes time to repair dishes, cables, and installation.
- Stay away from companies that tell you they'll send you CDs in the mail every 2 weeks or 30 days. Many of these companies don't fulfill these timeframes⁽¹⁾ and the customer ends up with the same music every day.
- Don't sign up with companies that require long term agreements. YOU are the customer—if you don't like us, then we're not doing our job and you shouldn't be forced to stay with us.

How Much?

Ok, the big question! How much is this going to cost us? What's the hidden stuff? Tell me all!

- As a result, MAX Music Service has set a new industry standard of month to month agreements. If you don't like us, give us 30 day's notice—that's it!
- There's no buyout obligations like our competitors charge.
- You can try us out for two weeks for free to see if we measure up to your company standards.
